User Experience

White Boarding

Story Mapping

Concept Creation

Hi! I'm Neha Sohail, and I am a front end developer and visual designer. I'm passionate about creating positive experiences through design and have an insatiable desire to learn and grow within team environments.

WORK EXPERIENCE AND ACCOMPLISHMENTS

MAGA DESIGN INC. // INTERACTIVE DESIGNER

June 2015-Present

- Build dynamic web apps using AngularJS and NodeJS
- Design and demo interactions using Pixate and Form
- Participated and won the DHS Flash Hackathon held in Washington, DC. As the selected UI/UX designer to represent Maga Design, I teamed up with Karsun Solutions and Salient CRGT to develop an employee appreciation application system. My role involved collaborating with the business analyst, developing mockups and prototypes, and communicating requirements to all six engineers on the team.
- Designed interface style guide and templates for USPS's online informational repository (1 year long contract)

JAB'ARGAN // FREELANCE GRAPHIC DESIGNER

December 2013-February 2016

- Created brand identity by designing the logo, marketing material, merchant site, packaging and other various touchpoints

MAGA DESIGN INC. // INTERACTIVE DESIGN INTERN

February 2013-June 2015

- Designed and built 508 compliant landing pages and websites using HTML/HTML5, CSS/CSS3, Javascript/jQuery, responsive design and cross-browser compatibility
- Enabled user testing for multiple applications by converting mockups into clickable prototypes
- Increased company awareness across all four studio locations by designing and developing an announcement dashboard that updates in real-time.

THE WASHINGTON FAMILY MAGAZINE // DESIGN INTERN

September 2012-December 2012

- Designed the table of contents, ad, and article pages for the December issue using InDesign
- Helped the team reach critical deadlines by taking on extra hours and working in a fast pace
